

# Colour Chameleon

## Rules of the game

The chameleons in this game are very mischievous and they have lost their spots! Can you help them to find their spots again? Colour Chameleon is a game for the little ones to learn how to recognise colours.

## Contents

- 4 Chameleon cards
- 24 Coloured spots; 4x red, 4x orange, 4x yellow, 4x green, 4x blue and 4x purple
- 1 Coloured dice

## Before you start

Carefully press all the chameleon cards out of the cardboard frame as well as removing the 24 coloured spots. Assemble the dice before the game starts. Fold the cardboard cube into shape and place it inside the plastic parts of the dice. Carefully press both parts together firmly. Take care: the parts only fit in a certain way and they are very delicate.

The leftover cardboard from that is not required can be disposed of with other paper and card to be recycled.

## How to play Colour Chameleon?

Each player chooses a chameleon card and takes six spots (one of each colour), placing them next to their chameleon card. The player with the most colourful clothes on goes first.

Look closely at your chameleon card. The aim is to fill in the missing spots on your chameleon from head to tail. You do so by rolling the dice.

- If the colour of the dice is the same as the colour of your first missing space, take a spot of the same colour and place it in the empty space on your chameleon. The turn then goes to the next player, moving clockwise.
- If the colour of the dice is not the same as the colour of your first missing space, bad luck and the turn goes to the next player.

## Who wins the game?

The first player to collect all six colours of the chameleon wins the game!

## Quick play game

You can also play a quick play version of the game with the little ones. This version does not require you to collect the coloured spots in the required sequence from head to tail.
